

NEW PRODUCT RELEASE

MOTORIZED LATCH RETRACTION FOR MORTISE LOCK APPLICATIONS

Architectural Control Systems, Inc. (ACSI) introduces the new M1500MLR motorized latch retraction for Schlage L9070 mortise locks.

The UL Listed M1500MLR is designed for fire rated doors providing access control interface conforming to life safety codes. **The M1500MLR is ideal for automatic door applications.**

Models available include:

- M1500MLR-L9070B Motorized latch retraction
- M1510/1520-L9070B Motorized latch retraction with field selectable fail safe/fail secure control. Automatic 24v or 12v operating voltage.

Options include:

- AE (Request to Exit) monitoring
- LMR (Latch bolt monitor retracted)

Locks are available in stock in all options. Customers can also send their locks to ACSI for modification. Please consult the ACSI sales team at sales@acsi-inc.com or visit acsi-inc.com for more information.

Call our Sales Team at 800-753-5558 and ask for Eric, Dominic or Bryson!
