

ELECTRIC EXIT DEVICE KIT INSTALLATION INSTRUCTIONS AUTHORIZED EGRESS

K-109

CORBIN RUSSWIN ED4000 AND ED5000 SERIES YALE 7000 SERIES

MONITORS THE USE OF THE TOUCH BAR

Electrical Specifications:

SPDT Monitor Switch
Contacts Rated: 3A @ 125VAC
2A @ 30VDC

Wire Color Codes:

YELLOW - Common
RED - Normally Open
GRAY - Normally Closed

Installation:

1. Separate the end cover from the exit device.
2. Locate the K-109 Kit on the rear touch bar mechanism.
3. Attach the switch bracket to the rear touch bar mechanism using the supplied threadforming screw and lockwasher. **Do not tighten the screw.** This will allow for adjusting the switch activation point to the touch bar.
4. While depressing the touch bar, slide the kit toward the touch bar activating the switch, then tighten the screw.
5. Attach the end cover to the exit device.
